Synopsis :

About the Author Captain Mike Ray has flown airplanes for his whole working life. He has managed to pass a bazillion check-rides and he knows what it is like. Writing for the pilot candidate specifically, he has a writing style that is both informative and entertaining.As a result, his training manuals are a part of thousands of airline pilots libraries. He is a proponent of flight simming as a valid training medium, and has attracted a large following among flight simmers. You will enjoy Captain Mike's material. Read more
